

THE MEDICAL DEPARTMENT OF THE LAKE FOREST UNIVERSITY.

RUSH
MEDICAL COLLEGE
CHICAGO.

FORTY SIXTH
ANNUAL ANNOUNCEMENT

1888-1889.

COLLEGE CALENDAR.

1888.
MARCH 1. Fiscal year of the college begins.
- SEPT. 25. TUESDAY.—Annual Winter Course, 1888-89 opens.
1889.
FEB. 19. TUESDAY.—Annual Winter Course, 1888-89, closes.
Final examinations for degree conducted during the week ending on this day.
- 10 A. M.—Annual meeting of the Alumni Association, for election of officers, transaction of business, and presentation of papers.
- 2 P. M.—Annual Commencement Exercises at Central Music Hall. Doctorate Address by President Allen.
- 7 P. M.—Annual Banquet of the Alumni of the College.
- FEB. 26. TUESDAY.—The Spring Course opens.
- JUNE 4. TUESDAY.—The Spring Course closes.
Examinations for the Spring Course conducted during the week ending on this day.

FORTY-SIXTH

ANNUAL ANNOUNCEMENT

OF

RUSH MEDICAL COLLEGE

(Medical Department of the Lake Forest University,)

Cor. of Wood and W. Harrison Sts.,

CHICAGO.

1888-1889.

CHICAGO :
REGAN PRINTING HOUSE.
1888.

BOARD OF TRUSTEES.

HON. L. C. P. FREER, PRESIDENT.

JOSEPH P. ROSS, M. D., VICE-PRESIDENT.

HON. GRANT GOODRICH, LL. D., SECRETARY.

CHARLES T. PARKES, M. D., TREASURER.

HENRY M. LYMAN, M. D., ASSISTANT SECRETARY.

J. ADAMS ALLEN, M. D.

JAMES H. ETHERIDGE, M. D.

DE LASKIE MILLER, M. D.

WILLIAM H. BYFORD, M. D.

EDWARD L. HOLMES, M. D.

HON. JOHN C. HAINES.

WALTER S. HAINES, M. D.

REV. W. C. ROBERTS, D. D., LL. D.

HIS EXCELLENCY RICHARD J. OGLESBY,

Governor.

HON. JOHN C. SMITH,

Lieutenant-Governor.

HON. W. F. CALHOUN,

Speaker of the House of Representatives.

J. ADAMS ALLEN, M. D., LL. D.,

President of the College.

Ex-Officio.

FACULTY.

J. ADAMS ALLEN, M. D., LL. D., PRESIDENT,
Professor of the Principles and Practice of Medicine. 125 State Street.

DELAKE MILLER, M. D., PH. D.,
Emeritus Professor of Obstetrics and Diseases of Children.

JOSEPH P. ROSS, A. M., M. D.,
Professor of Clinical Medicine and Diseases of the Chest. 438 Washington Boulevard

WILLIAM H. BYFORD, A. M., M. D., LL. D.,
Professor of Gynecology. 125 State Street.

EDWARD L. HOLMES, A. M., M. D.,
Professor of Diseases of the Eye and Ear. 112 Clark Street.

HENRY M. LYMAN, A. M., M. D.,
Professor of Physiology and Diseases of the Nervous System. 69 Dearborn Street.

JAMES H. ETHERIDGE, A. M., M. D., SECRETARY,
Professor of Materia Medica and Medical Jurisprudence. 1634 Michigan Avenue.

CHARLES T. PARKES, A. M., M. D.,
Professor of the Principles and Practice of Surgery and Clinical Surgery.
51 Lincoln Avenue.

WALTER S. HAINES, A. M., M. D.,
Professor of Chemistry, Pharmacy and Toxicology. Laboratory in College Building.

JAMES NEVINS HYDE, A. M., M. D.,
Professor of Skin and Venereal Diseases. 240 Wabash Avenue.

NORMAN BRIDGE, M. D.,
Professor of Pathology and Adjunct Professor of the Principles and Practice of
Medicine. 550 West Jackson Street.

ARTHUR DEAN BEVAN, M. D.,
Professor of Anatomy, Descriptive and Surgical. Rush Medical College.

NICHOLAS SENN, M. D., PH. D.,
Professor of the Principles of Surgery and of Surgical Pathology. Milwaukee, Wis.

J. SUYDAM KNOX, A. M., M. D.,
Professor of Obstetrics and Diseases of Children. 14 Loomis Street.

PROFESSORS OF SPECIAL DEPARTMENTS.

TRUMAN W. BROPHY, M. D., D. D. S.,
Professor of Dental Pathology and Surgery. 96 State Street.

E. FLETCHER INGALS, A. M., M. D.,
Professor of Laryngology. 70 State Street.

ADJUNCT PROFESSORS AND LECTURERS.

DANIEL T. NELSON, A. M., M. D.,
Adjunct Professor of Gynecology. 125 State Street.

PHILIP ADOLPHUS, M. D.,
Clinical Adjunct to the Chair of Gynecology. 638 Washington Boulevard.

EUGENE W. WHITNEY, A. B., M. D.,
Lecturer on Surgery and Demonstrator of Anatomy. 174 Warren Avenue.

ALFRED C. COTTON, A. M., M. D.,
Lecturer on Therapeutics. 193 South Wood Street.

EUGENE S. TALBOT, M. D., D. D. S.,
Lecturer on Dental Pathology and Surgery. 125 State Street.

SAMUEL J. HOLMES, M. D.,
Lecturer on Pathological Anatomy and Pathological Histology. 315 Fulton Street.

DANIEL R. BROWER, M. D.,
Lecturer on the Practice of Medicine. 70 State Street.

HENRY P. MERRIMAN, A. M., M. D.,
Lecturer on Gynecology. 2237 Michigan Avenue.

JOHN A. ROBISON, A. M., M. D.,
Lecturer on Materia Medica. 428 Washington Boulevard.

HAROLD N. MOYER, M. D.,
Lecturer on Physiology and Histology. 434 West Adams Street.

CASSIUS D. WESCOTT, M. D.,
Lecturer on Anatomy. Corner of Ogden Avenue & Madison Street.

HENRY T. BYFORD, M. D.,
Lecturer on Obstetrics and Diseases of Children. 125 State Street.

A. E. KAUFFMAN, M. D.,
Lecturer on, and Demonstrator of Chemistry. 325 W. Madison Street.

FREDERICK E. SHERMAN, M. D.,
Assistant Demonstrator of Anatomy.

WM. H. MORGAN, M. D.,
Clinical Assistant to the Chair of Diseases of Children.

THOMAS J. SHAW, M. D.,
Clinical Assistant to the Chair of Gynæcology.

ALBERT J. OCHSNER, B. S., M. D., F. R. M. S.,
Demonstrator of Physiology and Pathology.

ALFRED HINDE, M. D.,
Ophthalmologist to the Neurological Clinic.

C. F. PERKINS, M. D.,
Assistant Demonstrator of Anatomy.

MR. FRANK JORDAN GOULD, *College Clerk.*

ANNUAL ANNOUNCEMENT.

For the Year 1888-89.

THE Winter Term of the Forty-sixth Annual Session of Rush Medical College will commence Tuesday evening, September 25, 1888, and will continue twenty-one weeks. The introductory address will be delivered by Professor Knox.

The annual commencement exercises of the College will occur at the close of the winter term, February 19, 1889.

The Spring Term of the Forty-Seventh Annual Session will begin Tuesday morning, February 26, 1889, and will continue 14 weeks.

TERMS OF ADMISSION.

Students who commence their course of studies in Rush Medical College are required to furnish testimonials of sufficient preliminary education, either in the form of a diploma from a literary or scientific college, academy or high school, or of a certificate of examination for admission to such an institution, or a teacher's certificate of the first grade.

Graduates in medicine, previous matriculates of this college, and students who desire to pursue a special course without graduation, will be admitted without credentials or examination.

Students who have completed a full course of preparation for admission to the college, may, by special arrangement, be received on the certificates of their instructors.

Students who cannot furnish other evidence of a sufficient preliminary education, will be admitted on condition of passing an examination in writing in the elementary principles of physics and mathematics as taught in the public schools of the country. The written paper will be a sufficient indication of the student's knowledge of orthography and grammar, as well as of the subject given.

Students who desire to enter the advanced classes in the college must furnish satisfactory evidence of preliminary education and of an amount of study and college attendance equivalent to that which has been required of the members of the classes to which they seek admission. Graduates of the Preparatory Medical Departments of Lake Forest University, of the University of Wisconsin, of the Valparaiso Preparatory School of Medicine, and of other reputable Universities and Colleges will be admitted to the second year of the course in Rush Medical College.

CHANGES IN THE CORPS OF INSTRUCTORS.

Professor BEVAN, a graduate of the College and a very successful teacher of Anatomy in the Medical Department of the Willamette University succeeds Professor Parkes in the chair of Anatomy.

Professor NICHOLAS SENN, with an international reputation for original research in the domain of Surgery and of Pathology, occupies the chair of Principles of Surgery and of Surgical Pathology.

Professor Miller, after a service of nearly thirty years, whose labors have ever been marked by distinguished success, has felt compelled to withdraw from active duty, on account of ill health, a step which is deeply regretted by the Faculty and all friends of the College.

Professor KNOX, well known for many years for signal ability as a clinical and didactic teacher, has been called to the chair vacated by Professor Miller.

DR. HENRY T. BYFORD, the occupant of the chair of Obstetrics in the Spring Course, will enter upon his duties in the College with high qualifications as a writer and clinical teacher, and with a name which will be a promise of excellence.

DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the College, from the Treasurer, Professor PARKES, or from Mr. FRANK J. GOULD, College Clerk.

Students may select their seats in the lecture room when they take their tickets, or the Treasurer will select seats for them, on receipt of the matriculation fee, previous to the opening of the session; but seats thus pre-empted, if not occupied before the end of the second week of the Winter term, will be forfeited and assigned to students who are present to occupy them.

The College Clerk may be seen in the College building, and will aid in obtaining boarding-places, rooms, etc.

For further information address the Secretary, Professor J. H. ETHERIDGE, No. 1634 Michigan avenue.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board \$2.50 to \$4.00 weekly.

FEES FOR THE REGULAR ANNUAL COURSE.

Matriculation Fee (good till the following March).....	\$ 5.00
Lecture and Clinic Fees for the Course, including the Presbyterian Hospital tickets.....	80.00
Admission to the Dissecting Room, including the De- monstrator's tickets, materials free.....	10.00
Admission to Chemical Laboratory—materials free....	7.00
Admission to Laboratory of Physiology and Pathology— materials free.....	7.00
Admission Tickets to the Dissecting Rooms and Labora- tories are issued only to holders of the General Ticket.	
Final Examination—fee not returnable.....	30.00

Three-years' students, examined at the end of their second Winter, must advance one-half of this fee.

There is no fee for graduation. When fully qualified, the candidate is entitled to the degree and the diploma in testimony thereof.

From Alumni of this College, and from its students who have taken and paid for two full Courses of Lectures, the Matricula-

tion Fee only (\$5.00) will be required. From Alumni of other recognized medical colleges, the Matriculation Fee and one-half Lecture Fee will be required.

FEES FOR THE ANNUAL SPRING COURSE.

Matriculation Fee (good till the following March).....	\$ 5.00
Lecture Fees.....	20.00

This amount will be deducted from the fees of the next following Winter session.

Graduates of the College are admitted on payment of the Matriculation Fee only; graduates of other regular medical colleges on payment of Matriculation fee and ten dollars.

Fee for Practical Chemistry—including material.....	7.00
---	------

Admission to the Dissecting-Room—including the Demonstrator's ticket—material free.....	10.00
---	-------

Fee for admission to the Laboratory of Physiology and Pathology—including material.....	7.00
---	------

Tickets for the Cook County Hospital and for the Eye and Ear Infirmary, good for One Year, each.....	5.00
--	------

Certificates of attendance will be issued at the end of each term to such students as have attended the lectures, provided their conduct while at the College, and attendance, have been unexceptionable, and not otherwise.

INSTRUCTION.

Instruction in Rush Medical College is given by clinical and didactic lectures, practical work in the laboratories and dissecting room, and by oral recitation of lessons assigned by the Faculty.

The course of study required of the undergraduate students in this institution occupies three spring and three Winter terms. If any student is unable to complete his attendance at the College during these six terms, he will be required to furnish satisfactory evidence of requisite instruction during an amount of time and study equivalent to the period of his absence, before he can become a candidate for graduation.

Students in the College, and those who are pursuing their studies elsewhere with the intention of completing their collegiate course in this institution are advised to follow the subjoined schedule of lectures and studies.

Since it is most profitable for the student, during his College course, thoroughly to master a single text book in each department of medicine, the undergraduates are advised to confine their studies to the following text books:

TEXT-BOOKS FOR STUDY.

Wilson's (1880) or Gray's Anatomy. Holden's Dissector. Weisse's Anatomy. Kirke's Physiology. Attfield's Chemistry. Bristowe's or Roberts' Practice of Medicine. Druitts', Wyeths' or Heath's Dictionary of Surgery, for beginners; Gross' or Erichsen's, for advanced students. Byford's Obstetrics. Byford's Diseases of Women. The National Dispensary. Green's or Ziegler's Pathology. Williams' or Carter's Diseases of the Eye. Satterthwaite on Histology. Goodhart on Diseases of Children. Bennett's, Flint's or Klein's Elements of Clinical Medicine. Ingals' Diseases of Chest, Throat and Nasal Cavities. Hyde's Dermatology. Rohe's Hygiene. Ross on Nervous Diseases.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule and to use the above named text-books.

SCHEDULE OF STUDIES.

First Term—Spring.

ANATOMY—Cells, Fibers, Membranes, Viscera, and Long Bones. PHYSIOLOGY—Blood, Circulation, Respiration. INORGANIC CHEMISTRY.

Dissection of the Viscera; study of the Long Bones. Surgical Clinics at the College, Hospitals and Dispensary.

Second Term—Winter.

GENERAL ANATOMY—MATERIA MEDICA—PHYSIOLOGY—Alimentation, Digestion, Absorption. INORGANIC CHEMISTRY, with Laboratory work. SURGERY—Ulceration and Suppuration and their results.

Surgical Clinics. Dissection of the external soft parts. Study of the Bones. Practice of Auscultation and Percussion of the Normal Chest and Abdomen.

Third Term—Winter.

GENERAL ANATOMY—Bones—External soft parts. CHEMISTRY—Laboratory work—Analysis. Urinalysis. PHYSIOLOGY—Secretion, Nutrition, Movements. SURGERY—Surgical niressings and Appliances. PRINCIPLES AND PRACTICE OF MEDICINE—Congestion, Inflammation and its Results, Fever—MATERIA MEDICA, Diseases of Children.

Exercises in Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and of its organs, and of the Fœtus. Medical and Surgical Clinics.

Fourth Term—Winter.

GENERAL ANATOMY—Regional Dissections, Brain and Spinal Column, Histology. PHYSIOLOGY—Nervous System, Reproduction. ORGANIC CHEMISTRY—Laboratory. MATERIA MEDICA, SURGERY, PRINCIPLES AND PRACTICE OF MEDICINE, OBSTETRICS—Generation, Fœtal Development, Normal Parturition, Dermatology and Venereal Diseases.

Exercises in bandaging and application of splints. Operations on the Cadaver. Anatomy and Physiology of the Eye and Ear, Laryngology. Exercises in Auscultation and Percussion. Medical and Surgical Clinics. PATHOLOGY and Post Mortem Examinations, Dental Pathology, Medical Jurisprudence.

Fifth Term—Spring.

Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics, Hygiene, Medical Jurisprudence, Genito-Urinary Diseases.

Regional Dissections, Chemical Laboratory Work, Toxicology, and Special Researches.

Clinics, general and special; Diseases of Women and Children. PATHOLOGY and Post-Mortem Examinations.

Sixth Term—Winter.

All Lectures and Clinics; Regional Dissections; Post-Mortem Examinations. General Review.

Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year especially to the practical branches and to clinics.

THREE YEARS' COURSE.

The Faculty desire that the matriculates of this institution shall pursue their studies in the College during three spring and three winter terms. To encourage this complete curriculum of study, such students will be registered as Special Faculty Students; and, at the end of their second winter term, they will be admitted to final examinations in Descriptive Anatomy, Physiology, Chemistry, Materia Medica, and Therapeutics. Students from the Preparatory Departments of Lake Forest University, the University of Wisconsin, etc., who have been admitted to the second year's course, will be allowed the same opportunity for examination.

To each graduate who, as above recommended, has studied three full winter terms, and two spring terms, or more, will be awarded, in addition to the Diploma, a certificate of honor, signed by the Faculty of the College and by the Lecturers in the Spring Course. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

SPRING TERM.

The advantages afforded by the Spring Term are in no way inferior to those included in the Winter Term. Beginning February 26, 1889, at 8 a. m., it will continue fourteen weeks. During its course the students will be instructed by lectures and recitations in the College, and will pursue their practical education in the laboratories and dissecting room, and in the clinical departments of the hospitals and dispensaries.

During the last week of the term, the students will be examined upon the studies of the term, and will receive a certificate thereof with their standing. Their standing in this examination will be considered by the Faculty in its final decision of the question of their graduation.

Attendance during a spring term will not be accepted as a substitute for attendance upon a COURSE OF LECTURES in fulfillment of the requirements for graduation.

More than two hundred students were in attendance during the spring term of 1888.

PRACTICAL CHEMISTRY.

The College is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines, assisted by the Demonstrator of Chemistry, will give a special course in Practical Chemistry, devoting to the work three afternoons of each week. The course will consist of a series of experiments designed to illustrate the applications of Chemistry to practical medicine, especial attention being given to the subject of the examination of the urine. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in Practical Chemistry has been made one of the requirements for graduation in this College, students will find the Spring term a most convenient time for the pursuit of this study.

PRACTICAL SURGERY UPON THE CADAVER.

Private instruction in Operative Surgery will be given by the Demonstrator, Dr. E. W. Whitney. The members of the class will be enabled to practice, upon the cadaver, the principal operations of general surgery; such as the typical ligations, resections, amputations, etc. Special reference will be made to the anatomy involved in each operation.

The class will meet in the surgical room adjoining the dissecting room, from 5 to 6 P. M. Instruments will be furnished by the Demonstrator.

The fee is \$10 for twelve lessons—materiel free.

PRACTICAL ANATOMY.

The best advantages are afforded for the practical study of Anatomy, in all its branches. Materiel in abundance is provided. The most recent and approved means of illustration by the calcium light will be used.

PRACTICAL PHYSIOLOGY AND PATHOLOGY.

The Laboratory of Physiology and Pathology is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the Winter and Spring courses.

CLINICAL INSTRUCTION IN THE COLLEGE BUILDING.

Surgery.

TWO SURGICAL CLINICS will be given by Professor Parkes each week, one on Tuesday and one on Saturday. During the past year nearly 1000 patients have been treated in this clinic, and several hundred important surgical operations performed. These embraced almost all the operations, both of major and minor surgery, and included numerous laparotomies, amputations, resections, cystotomies, etc.

Medicine.

A clinic on DISEASES OF THE CHEST, by Professor Ross, will be given every Wednesday; one on the DISEASES OF THE NERVOUS SYSTEM, by Professor Lyman, every Thursday; and a MEDICAL CLINIC, by Professor Bridge, every Monday—all continuing throughout the year.

About 2000 patients are treated in these medical clinics each year, presenting an almost endless variety of morbid conditions.

Diseases of Children.

Prof. Knox, assisted by Dr. Cotton, will give a special clinic, each Thursday throughout the year, on DISEASES OF CHILDREN.

Gynecology.

Professors Etheridge and Nelson and Dr. Adolphus will hold a daily clinic in the College Building, for the special instruction of the graduating class in CLINICAL GYNECOLOGY.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

A clinic will be given each Wednesday in the amphitheater by Professor Nelson.

Skin and Venereal Diseases.

Professor Hyde will give a clinic on SKIN AND VENEREAL DISEASES at 3 P. M. of every Monday throughout the year, in the upper amphitheater of the building. The extensive collection of plates and photographs purchased by the College, has been arranged in cabinets, on the same floor and adjacent to the amphitheater, with special view to the illustration of this department.

Diseases of the Eye and Ear.

Professor Holmes, with the assistance of Drs. J. E. Colburn and Alfred Hinde, will give a clinic in the amphitheater at 3 P. M. every Wednesday throughout the year, on DISEASES OF THE EYE AND EAR.

Diseases of the Throat and Nose.

Professor Ingals will give a clinic on Diseases of the Throat and Nose at 3 P. M. every Friday, in the lower lecture room. A large number of patients from which to select rare or typical cases affords unusual facilities for studying this class of diseases.

THE PRESBYTERIAN HOSPITAL.

The wing of the hospital, contiguous to the college, was completed in 1884. It has beds for sixty patients, and is perfectly equipped for the care of every form of non-contagious disease. An addition to this wing, which increases its capacity by thirty-five beds, has just been constructed. The main building, a magnificent edifice, for which the foundations are now laid, will be ready for occupancy next winter, and will accommodate with the present wing two hundred and fifty patients.

The following named gentlemen compose its staff.

MEDICAL STAFF.

CONSULTING PHYSICIANS.—J. Adams Allen, M.D., Charles Gilman Smith, M. D.

ATTENDING PHYSICIANS.—Joseph P. Ross, M.D., H. M. Lyman, M. D., Norman Bridge, M. D.

CONSULTING SURGEONS.—R. N. Isham, M. D., R. G. Bogue, M. D.

ATTENDING SURGEONS.—C. T. Parkes, M. D., D. W. Graham, M. D., E. W. Whitney, M. D.

ATTENDING GYNECOLOGISTS.—J. H. Etheridge, M. D., H. P. Merriman, M. D., Philip Adolphus, M. D.

PHYSICIANS FOR DISEASES OF CHILDREN AND ACCOUCHEURS.—De-Laskie Miller, M. D., J. S. Knox, M. D.

ATTENDING PHYSICIANS FOR SKIN DISEASES.—J. N. Hyde, M. D., R. D. MacArthur, M. D.

ATTENDING OPHTHALMIC AND AURAL SURGEONS.—E. L. Holmes, M. D., Lyman Ware, M. D.

ATTENDING PHYSICIAN FOR DISEASE OF THE THROAT.—John A. Robison, M. D.

RESIDENT PHYSICIAN AND SUPERINTENDENT.—H. B. Stehman, M. D.

THE COUNTY HOSPITAL.

(Opposite the College Building.)

The hospital, standing on a block of twelve acres of land, was erected at a cost of nearly a million dollars.

Two new pavilions have been recently erected, which have greatly increased the capacity of this commodious structure.

The amphitheater of the hospital with a seating capacity for six hundred persons, is the room in which all the surgical, medical and special clinics are held. More than seven thousand patients were treated at the hospital during the past year, and hundreds of important surgical operations were performed.

In the rear of the amphitheater is the Necropsy Theater, in which are held all the post-mortem examinations of the hospital. Ample opportunities are given for the study of the gross appearances produced by disease.

THE ILLINOIS CHARITABLE EYE AND EAR INFIRMARY.

This institution affords the largest facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 4,400 patients received treatment at the Infirmary; more than 600 operations were performed.

Regular clinics will be given during each week of the session by Drs. Holmes, Hotz, Ware, Montgomery, Schaefer, Gardiner and Bishop.

THE CENTRAL FREE DISPENSARY.

Excellent opportunities are offered to students and practitioners, for clinical instruction at the Central Free Dispensary, which occupies the first floor of the College building. Many

thousand patients received treatment in this Dispensary during the past year. Patients are classified according to their diseases. A wide field is here afforded for the study of specialties.

The prescribing hours are from 2 to 5 P. M. each day.

HOSPITAL INTERNES.

Positions as Internes in the Cook County, the Presbyterian, the Michael Reese, and the St. Luke's Hospitals and the Illinois Charitable Eye and Ear Infirmary, are open each Spring to graduates through a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging, and acquire an extensive experience in every department of practical medicine and surgery.

EXAMINATIONS.

Examinations for the degree of Doctor of Medicine are held annually during the last week of the winter term, and in exceptional cases in the first week of the ensuing winter term.

GRADUATION.

The following are the requirements for the degree of Doctor of Medicine.

1st. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, WHICH INCLUDES UNEXCEPTIONABLE CONDUCT WHILE AT THE COLLEGE.

2nd. He must have pursued the study of medicine three years, and have attended at least two full courses of lectures, not delivered in one twelve-month, of which the first one may have been in some other recognized medical college, but the last must have been in this institution. The lectures of the Spring term cannot be considered as a COURSE OF LECTURES in this requirement.

3d. He must have received clinical instruction during at least two college terms.

4th. He must have pursued the study of Practical Anatomy, under the direction of the Demonstrator, and to the extent of having dissected each region of the body.

5th. He must have taken one course in Practical Chemistry, under the direction of the Professor of Chemistry.

6th. He must have taken one practical course in the Laboratory of Physiology and Pathology.

7th. He must notify the Secretary of the Faculty of his intention to become a candidate, depositing the amount of the examination fee with the Treasurer, on or before the 20th day of January.

8th. Every candidate must undergo a full and satisfactory written or oral examination on each branch taught in the College.

TEXT BOOKS.

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others are recommended:

CHEMISTRY.—ATTFIELD.

ANATOMY.—Quain, Wilson (1880), Gray, Weisse.

PHYSIOLOGY.—Kirke, Foster, Landois and Stirling.

MATERIA MEDICA AND THERAPEUTICS.—The National Dispensitory, Ringer, Binz.

MEDICAL JURISPRUDENCE.—Elwell, Taylor, Beck, Casper.

OBSTETRICS.—Playfair, Lusk, Parvin.

DISEASES OF WOMEN.—Byford, Barnes.

DISEASES OF CHILDREN.—Smith, Goodhart.

SURGERY AND SURGICAL PATHOLOGY.—For first course students, Druitt or Heath's Dictionary of Surgery.—For advanced students, Gross, Erichsen, Holmes, Paget, Billroth.

OPERATIVE SURGERY.—Bryant, Barker.

PRACTICE OF MEDICINE.—Flint, Loomis, Bristowe, Watson.

NERVOUS DISEASES.—Rosenthal, Bramwell, Ross, Strumpell.

PATHOLOGY.—Ziegler, Coats, Wagner.

CLINICAL MEDICINE.—Bennett, Trousseau.

DISEASES OF THE HEART.—Flint, Walsh.

DISEASES OF THE LUNGS.—Walsh, Fuller.

PHYSICAL DIAGNOSIS.—Flint, Loomis.

PHYSICAL DIAGNOSIS AND LARYNGOLOGY.—Ingals.

SURGICAL ANATOMY.—MacIise, Godlee.

MICROSCOPICAL ANATOMY.—Stricker, Satterthwaite, Shaefer.

OPHTHALMOLOGY.—Williams, Wells, Stelwag, Carter.

OTOLOGY.—Roosa, Burnett, Buck.

DERMATOLOGY.—Hyde.

HYGIENE.—Rohe, Parkes, Buck.

Located at Chicago, Comprising,

RUSH MEDICAL COLLEGE.
NORTHWESTERN COLLEGE OF DENTAL SURGERY.

THE PHILOSOPHICAL FACULTY.

Located at Lake Forest, Offering

POST-GRADUATE COURSES.

LAKE FOREST.

LAKE FOREST is a suburb of Chicago, situated on the shore of Lake Michigan, twenty-eight miles north of the city. Its site occupies the highest elevation of land along the lake between Chicago and Milwaukee. The town was originally laid out as a park, and is entirely devoted to residences and the University buildings. The charter prohibits the sale of all intoxicating drinks, and its provisions are rigidly enforced by public sentiment. Local trains on the Milwaukee Division of the Chicago & Northwestern Railway give hourly communication with Chicago. Lake Forest thus combines the advantages of residence in a city with those of an attractive and healthful resort.

For catalogue, or further information regarding the examinations, or any department of the University, address,

PRESIDENT W. C. ROBERTS,
LAKE FOREST, ILLINOIS.
